Summary

Full-stack developer with production experience shipping payment integrations, role-based admin systems, and real-time platforms end to end using React, Node.js, and Firebase. Comfortable owning a feature from database schema to deployed UI.

Education

Indian Institute of Information Technology, Tiruchirappalli

Nov 2022 – May 2026

B.Tech in Computer Science and Engineering

CGPA: 7.21 / 10.0

R.N.T.S College Morshand, Sitamarhi

Jun 2020 – Feb 2022

Intermediate in Science (PCM)

85%

Experience

Unified Mentor Pvt. Ltd.

Aug 2025 – Nov 2025

Full Stack Developer Intern

Remote

- Built a full-stack **Soil Farming Agent** platform with Firebase Auth and **role-based access control** across 2 user roles.
- Integrated Firestore for real-time data sync, cutting perceived dashboard load/update latency to under 1 second.
- Shipped features in 2-week agile sprints alongside 3 engineers, participating in standups, sprint planning, and peer code review.

Projects

SyncTube — Real-Time YouTube Watch Party Platform | GitHub | Live

Sep 2026

- Built a real-time watch-party platform (**React**, **Node.js**, **Socket.IO**) syncing YouTube playback across unlimited viewers with less than 1.5s drift correction.
- Designed an **OOP** backend with 3-tier **role-based access control** (Host/Moderator/Participant), enforced server-side and validated by 10+ automated tests.

DMPL — Delhi Medicos Premier League | dmplt20.com

May 2026 – Present

- Architected and deployed a full-stack e-commerce-style platform (**React**, Vite, Tailwind) on a **PocketBase (Go)** backend, powering registration, payment, and live-status modules for a tournament of **150+ registered players across 8 teams** from **80+ medical colleges**.
- Integrated the **Razorpay** payment gateway end-to-end — server-side order creation plus **HMAC-SHA256** webhook signature verification — to securely process registration payments across all 8 teams.
- Automated transactional email (**SMTP**) for order/registration confirmations and built an internal admin tool for manual payment reconciliation, reducing manual follow-up for the organizing team.

ResumeIQ — AI-Powered Resume Analysis Tool | Live

Feb 2026 – Apr 2026

- Developed a **React.js** application that parses resumes against job descriptions via REST API calls, returning structured match/gap feedback in under 5 seconds per request.
- Implemented component-level state management and non-blocking async API handling with a reusable UI component library for a clear information hierarchy.

FaithConnect — Cross-Platform Mobile Application (MVP) | GitHub

Dec 2025 – Jan 2026

- Engineered a cross-platform mobile app with **React Native** and **TypeScript** from a single codebase, targeting both iOS and Android.
- Integrated **Firebase Firestore** and Firebase Auth for real-time sync and secure onboarding, with a modular, scalable navigation architecture spanning 11 screens across public, worshiper, and leader roles.

Technical Skills

Languages: C++, Python, JavaScript, TypeScript

Frontend: React.js, Redux Toolkit, Next.js, Tailwind CSS, HTML5, CSS3

Backend: Node.js, Express.js, REST APIs, PocketBase

Databases: MongoDB, Firebase Firestore

Integrations & Tools: Razorpay, SMTP/Transactional Email, Git, Postman

CS Fundamentals: Data Structures & Algorithms, Operating Systems, Computer Networks, DBMS

Achievements

- Solved **250+** Data Structures & Algorithms problems across **LeetCode** and **GeeksforGeeks** — LeetCode | GFG

Certifications

- Cloud Computing — NPTEL (IIT Kharagpur)
- Ethical Hacking — NPTEL (IIT Kharagpur)
